

Sen. Casey, Sen. Toomey, Rep. Meuser,

I urge each of you to support the Postal Services Reform Act of 2021 (H.R. 3076, S.-TBA) with your cosponsorship or at least your vote. We need a postal service that is nimble, efficient, financially stable and one that is able to deliver on-time mail-order medications to my former Veterans Affairs patients and to others, election mail, and checks. One of our checks to a non-profit took 2 months to be delivered. We hand-delivered our primary election ballot out of distrust for local mail. We do not agree with the Postmaster that slowing the mail is the prudent strategy for financial stability, and will submit that comment to the Postal Regulatory Commission. But we do agree with this bill and with the Postmaster's proposal to modernize the pension and health benefits for postal workers.

Duncan MacLean M.D.

C: Postal Regulatory Commission
